

# Whitney Bilbao

Hello there, and thank you for inquiring! I cannot wait to work with you!

A little about myself before you get to scrolling. I am 26 years old and live in Boise. I have 3 years of photography under my belt and hope to have many more. I love the outdoors, wine, cooking, and lifting heavy stuff. I enjoy reading Reese Witherspoon's book club finds and watching terrible Reality TV. If I'm not on my computer editing I am searching for a cheap flight on Google or spitting off puns to my family or boyfriend. I'm also very short, so please let me know if I need to bring a step-ladder.

To be quite frank with you, I am not a gushy lovey photographer, I am a let's have a drink together and laugh until we cry type of photographer. So if that interests you, you're in the right spot!

travel / having the photographer travel to a destination that is longer  
than 60 minutes away from Boise or Elko.

# FAQs:

Q: I like your photos and prices, now what?

A: I like to set up a Facetime with all of my clients so we can get acquainted! I like to know about you, your style, and go over the basics. Then we schedule a time and place(s) and go from there!

Q: How far in advance should I book with you?

A: Sometimes I can get people in within a week, but love if I have a month notice so that we can plan and make your photos perfect! I have a full-time job, so weekends are usually best. I do ask that you take into consideration when you need your photos by because they take about 2-3 weeks to edit (especially during busy season).

Q: What is the cancellation and rescheduling policy?

A: \$75 NON-REFUNDABLE, per your contract. I understand things happen, I am happy to reschedule! Please don't reschedule more than 2 times, as I value my time and other clients. I do ask for a 48 hour notice so that I can try and get someone else in. However, if I have to reschedule and we are unable to find another time to work together, I am happy to give your money back so that you are able to support another photographer.

Q: When can I expect my photos back?

A: Please give me 2-3 weeks to edit your photos. I do have a full-time job and edit when I am off of work/weekends!

Q: Can I have my RAW photos?

A: I never have and never will give out RAW images. You're hiring me to capture what is important to you, but let me make it cute and add my personal touch first!

# FAQs:

Q: I hate being in front of the camera / My S.O hates photos!

A: Hey, I feel that! Whether it's just you, you and your honey, or your whole family - we are going to have a good time! I love to talk, I love getting to know my clients, and I love making people feel like there's not even a camera there. Need some liquid courage? I highly recommend that or bringing along a friend to hype you up! I am here to make you feel and look like a million bucks! Have an open mind and don't think about what you look like. If something looks awkward, I'll help you :)

Q: Can I edit these photos or can you make them look like "so-and-so's"

A: In your contract you will see that I have a spot that doesn't allow you to alter photos, or you will be asked to take them down. If you would like to own your photos outright, I will happily give you the copyright for \$300 extra. All of my photos are pretty naturally edited and warm. I make presets on a per client basis depending on the weather, setting and clothing you're wearing. With that being said, everyone's photos are a little different. We can take inspiration from "so-and so", but ultimately they will all turn out a little differently. If you don't like your gallery for some reason, we can have a discussion on what we might be able to change.

Q: Can you photoshop me to make me look skinnier?

A: I do not use photoshop! I enhance light and colors and get rid of blemishes or things in the background. I do not make people skinnier, straighten teeth or anything extreme. You're great the way you are! If altering your body is something you're looking for, feel free to look elsewhere - no hard feelings here!
